Profile

Full-Stack Developer skilled in ASP.NET, SQL Server, Angular, JavaScript, HTML, and CSS, with expertise in building secure web apps, RESTful APIs, and responsive designs. Trained at the Information Technology Institute (ITI), with hands-on experience developing optimized full-stack projects. Worked as a freelancer on multiple projects, strengthening problem-solving and client collaboration. Proficient in clean code, database design, delivering scalable solutions with a focus on performance and security.

Education

FULL STACK .NET DEVELOPER   Feb 2025 - present

Information Technology Institute (ITI)

- Completed intensive training in Front-End (Angular) and Back-End (.NET) development, building responsive UIs and RESTful APIs.

B.S.E in Computer Science and Information Technology   Sep 2018 – Jun 2022
Assiut University

- Major: Computer Science GPA: 3.09.
- Graduation Project: Minions' DB.
- Grade: Excellent.

Projects

Book A Farm Frontend (Angular) – Backend (.NET).   **(Freelancing)**

- Farm Booking Platform - Online system for browsing, booking, and paying for farm rentals via bank transfers.

- Tech Stack - Built with ASP.NET, Angular, and SQL Server for secure farm owner-renter connections.

The Helper Fronted (html - CSS - JS) – Backend (.NET).   **(Freelancing)**

- Web app (HTML/CSS/JS) for foreigners to find local shops, pharmacies, and craftsmen with contacts and locations.

- Powered by .NET backend for data management and APIs.

E-commerce (html - CSS - JS).

- **Responsive E-Commerce Frontend:** Built with HTML5, CSS3, and JavaScript - featuring product listings, cart functionality, and checkout flow.

- **Dynamic User Experience:** Includes interactive product filters, AJAX cart updates, and mobile-first design for seamless shopping.

Graduation Project: Minions' DB. Fronted (Flutter) - Backend (.NET).

- **Flutter Frontend:** User-friendly mobile app enabling non-technical users to create and manage relational databases visually.

- **.NET Backend**: Powerful API handling database operations, relationship mapping, and secure data storage

Technical Skills

Backend:

ASP.NET Web API | ASP.NET MVC | LINQ | ADO.NET | Entity Framework | C# | Java ..

Frontend:

Angular | HTML | CSS | Bootstrap | Tailwind | JavaScript | AJAX.

Software Development:

OOP | SOLID | Design Patterns | Clean Code | Data Structures & Algorithms | Problem Solving.

Version Control:

Git | GitHub.
